
Airefil Filter Frames

- **Stainless steel or galvanised steel construction**
- **Simple, effective holding clips**
- **For panel filters, bag filters and other header-style filters**
- **Pre punched to facilitate easy on-site assembly**
- **Effective seal to prevent air bypass**

Description

Airefil Filter Frames are front access frames, and are available in a range of sizes in either galvanised steel or stainless steel. They are suitable for panel filters, both washable and disposable, bag filters and other filters with headers. They positively retain the filters by means of four simple clips, and a filter seal is effected by a neoprene gasket.

Product Code	Construction	Dimensions	Filter Size	Approx wt (kg) (without filter)
HS1010	Stainless Steel	610 × 610 × 70	594 × 594	1.8
HS1011	Stainless Steel	610 × 305 × 70	594 × 289	1.4
HS1012	Stainless Steel	508 × 508 × 70	492 × 492	1.5
HS1110	Galvanised steel	610 × 610 × 70	594 × 594	2.0
HS1111	Galvanised Steel	610 × 305 × 70	594 × 289	1.5
HS1112	Galvanised Steel	508 × 508 × 70	492 × 492	1.7

Code for Ordering:

To specify the clips appropriate for the filter, append the product code as follows:

- 1 = for bag filters, other header-style filters and 22 mm panel filters.
- 2 = for 44 mm panel filters or for a combination of bag filter or header-style filter with 22 mm panel filter.
- 3 = for a combination of bag filter or header-style filter with a 44 mm panel filter
- 4 = for a 92-95 mm panel filter
- 5 = for a combination of bag filter or header-style filter with a 92-95 mm panel filter

e.g. HS1110-2 is a galvanised steel filter frame for a 44 mm panel filter with dimensions of 594 × 594 mm
